Background

Neddyville Engineering is a subsidiary of the Neddyville Uganda Limited conglomerate. It provides engineering construction and consultancy services in Structural and Civil Engineering.

With experience of over Fifteen years in engineering practice, the company has acquired considerable experience in the design,, construction, supervision and contract administration of wide scope of projects involving civil engineering infrastructure services, buildings and telecom infrastructure. We have undertaken civil and structural engineering design of several multi-story buildings for residential and commercial projects.

Technology
Solutions For
Building Construction

Introduction

Neddyville Engineering has been an active member in the construction industry for more than 14 years and is held in high esteem by its many high-profile clients. We are a medium-sized civil and building company that has the technical and project management skills necessary to take on a variety of projects.

The schedule of major work carried out (refer to pages 7-14), will indicate the nature, diversity and varying size of projects undertaken and the clients for whom we work.

We provide services in the following construction disciplines:

- **Civil Engineering**

All types of concrete structures such as water treatment plants, reservoirs, silos, bridges, machine bases and the like.

- **Commercial building**

Factories, Warehouses, Parking Garages, Offices, Hotels and other commercial or industrial structures.

- **Residential**

Sectional title town apartments and cluster housing.

- **Services**

Sewers, storm water and water supply.

- **Turnkey**

We also offer a full turnkey service i.e. design, construction and project management.

- **Structural Appraisal**

Remolding of existing structure to improve performance and extend service life.

- **Structural Steel**

Manufacturing and installation of all types of structural steel.

OUR MISSION

Our mission is to provide building and construction expertise to our clients and to deliver all projects to the required quality, on time and on budget.

OUR VISION

Our vision is to become reputable and preferred building contractor who is well known for delivering beyond the client's expectations.

OUR CORE VALUES

Transparency, Integrity, Client Focus, Responsibility, Honesty, Performance and Value for Money
